Modbus Gateway Solutions For Your Critical Industrial Networking

- ⑤ 1/2/4-port 3IN1 DB9 serial port and 2-port 10/100BaseTX (RJ45) connector
- ⑤ Supports conversation between Modbus TCP, ASCII, and RTU communications protocols
- ⑤ Connects up to 256 Modbus TCP master/client devices, connects up to 128 Modbus TCP slave/server devices
- ⑤ Supports 110bps-115200bps transmission speed and non-blocking communication
- ⑤ Intelligent Command Learning for reducing polling time and increasing communication performance
- ⑤ Provides a priority control function for urgent commands and allows urgent commands get an immediate response
- ⑤ Supports automatic identification for slave ID
- ⑤ Ethernet ports support cascading mode, dual IP mode and redundancy mode
- ⑤ Real-time monitoring for communication data via system log
- ⑤ Routing through the serial ports can be controlled by IP address or ID mapping
- ⑤ Supports 12-48VDC redundant dual power supply input
- ⑤ Industrial design with -40 to 75°C operating temperature range
